515–516

Dated 25-2 1871.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
25th February 1871.

No. 515. Read the following letter from the Superintending Engineer in temporary charge of 8th Division, to the Chief Engineer for Irrigation, dated Palamcottah, 7th February 1871, No. 2,845:—

The Executive Engineer, on special duty, Madura District, has drawn my attention to the fact that the temporary establishment sanctioned by Government in their Order marginally quoted for registering the discharge of the Vigay is now discontinued.

No. 2,413, 6th October 1870.

2. It is, I think, desirable that these registers should be continued again next season and in future seasons; for this purpose an establishment for nine months per annum will be sufficient, costing Rupees 270 per annum, and I have now the honour to request you to obtain the necessary sanction of Government.

3. No register would be kept during the months of February, March, and April.

No. 516. Order thereon, 25th February 1871, No. 553.

ESTABLISHMENT, No. 37.

The Government sanction the entertainment, for nine months in 1871-72, of one Goomastah for recording freshes in the Vigay at the anicuts. It is not thought necessary, seeing that there are no large affluents between these anicuts and Madura, to provide any special establishment for registrations at the latter place. The charge to temporary establishments on this account in 1871-72 will be Rupees 135.

2. Should the Superintending Engineer think it advisable to have observations of the river made at Madura, it might be managed by some one from that officer's office, which is only a few yards distant from the Vigay.
